

Jumpstart Team Building

Jump-Start Team Building (JST) A method developed by General Systems Consulting & the LEAD Institute Jump-Start Team Building is a process to help good teams become great, to initialize and kick-off new teams and to “fix” teams in disrepair and dysfunction. Jump-Start Team Building combines four critical aspects of team effectiveness interventions to help teams emerge stronger, more capable and with a developed infrastructure to ensure and sustain their effectiveness.

Jump-Start Team Building incorporates dynamic presentation, experiential learning, role-play, skill practice, small group work and numerous break out sessions. All of these learning modalities ensure a comprehensive and engaging developmental experience. Teams are dynamic, versatile and effective work structures. Jump-Start Team Building ensures you get maximum impact and benefit from your critical teams.

Objectives/Benefits

- ◆ Newly formed teams get up and running fast, quickly hitting their performing potential and adding value to their organization.
- ◆ Existing team are re-energized and use the course to achieve their full performance potential.
- ◆ Leaders of teams create more members commitment (to achieve goals) with which to work with within their teams.
- ◆ Higher levels of cohesiveness. Members feel a greater sense of focus, direction and affinity for their team and team members
- ◆ Increased satisfaction with work assignments.
- ◆ Members learn how to work together and build effective relationships.
- ◆ True, manageable empowerment.
- ◆ Hightened performance standards and the required ownership and commitment for members to try to strive to meet them.
- ◆ The team gets real work done, makes decisions and take action, within the context of the workshop.
- ◆ Fewer missed assignments.
- ◆ Increased meeting effectiveness and efficiency.
- ◆ Improved team performance.
